19-Jan-12 02:50 | glovely

RT @fssimon @DrLDMcManis Actually, don't you think the scholarships are part of solution to some of the probs we're discussing? #ecetechchat

@aueagle1 True, but all it takes is desire to use it and seeking the right help on how to use it. #ecetechchat

19-Jan-12 02:49 | TeacherInMe

@mpowers3 Right! In my experience technology for teachers has to be easily and quickly demonstrable. #ecetechchat

19-Jan-12 02:49 | mattharrell

19-Jan-12 02:47 | aueagle1

@TeacherInMe do you attend @dustormagic ? #ECETechChat

Don't have a specific LMS in mind-more the concept! #ecetechchat

19-Jan-12 02:23 | DrLDMcManis

@drlmcmmanis such as Moodle or Blackboard? or something more open source? #ecetechchat

19-Jan-12 02:23 | mpowers3

I would like to see more learning management systems too where teachers could get real time 'answers' in a group setting #ecetechchat

19-Jan-12 02:20 | DrLDMcManis

@KarenNemethEdM EdCamps, eTech conferences #ecetechchat

19-Jan-12 02:20 | TeacherInMe

@aueagle1 I think differentiating is great - the issue is just getting more time and funding for PD and valuing of it #ecetechchat

19-Jan-12 02:20 | mpowers3

RT @aueagle1: @mpowers3 #ecetechchat And yet we are expected to differentiate with our students. Can we not apply the same for teachers?

19-Jan-12 02:20 | KarenNemethEdM

@giovanniarroyo makes sense, it would just be great to have some resources we could put up online for all teachers to use #ecetechchat

19-Jan-12 02:19 | mpowers3

Any of you know of professional learning communities established for #EARLYED tchrs to play together on tech? #ECETechChat

19-Jan-12 02:19 | KarenNemethEdM

RT @mpowers3: @karennemethedm @FSSimon I think it could be a mix. F2F learning, videos, webinars, exploration @ home/school #ecetechchat YES

19-Jan-12 02:19 | FSSimon

@karennemethedm @aueagle1 The ones I've gone to in Philly have been awesome! #edcamplove #ecetechchat

RT @glovely: Sometimes just pulling out MY tech & showing in the very moment w/ their kids is powerful #ECETechChat Gr8, Gail!

19-Jan-12 02:18 | FSSimon

@mpowers3 BIG point, Maggie. If we try to overcome resistance by training on a device, start all over again with each new 1 #ECETechchat

19-Jan-12 02:18 | KarenNemethEdM

@karennemethedm @FSSimon I think it could be a mix. F2F learning, videos, webinars, exploration @ home/school w/ tech #ecetechchat

@mpowers3 #ecetechchat And yet we are expected to differentiate with our students. Can we not apply the same for teachers?

19-Jan-12 02:18 | aueagle1

@KarenNemethEdM I think Youtube, podcast, webinar, or site visits are great. Not always a workshop. #ECETechChat

19-Jan-12 02:18 | FSSimon

@aueagle1 Oh we want more info on edcamp, please! #ECETechChat

19-Jan-12 02:17 | KarenNemethEdM

Part of the PD or prof learning should be abt ways of thinking & exploring. So when the tech changes teachers can change w/ it #ecetechchat

19-Jan-12 02:16 | mpowers3

RT @dubioseducator: @FSSimon Can we look at PD as prof learning. More inclusive #ecetechchat #ECETechchat Right on: PD, not training!

19-Jan-12 02:16 | FSSimon

@FSSimon Another way to overcome resistance is for tchrs to see their boss trying it, stumbling, and learning with them #ECETechChat

19-Jan-12 02:16 | KarenNemethEdM

@FSSimon @KarenNemethEdM #ecetechchat Letting teachers choose their learning sounds like an edcamp. One in Columbus, OH coming up soon.

19-Jan-12 02:15 | aueagle1

@chipdono Last week @mentormadness said the same thing, but I think there must be some precursor to free play for tchrs. No? #ECETechChat

19-Jan-12 02:15 | FSSimon

@chipdono Great idea but how do you get the funding and tools for teachers to take home and play with? #ecetechchat

19-Jan-12 02:15 | mpowers3

I agree with @CHIPDONO to let tchrs take home and play. Plus - budget should include sending teenager with them to help ;) #ECETechChat

19-Jan-12 02:14 | KarenNemethEdM

@FSSimon Can we look at PD as prof learning. Seems more inclusive - we're all learning not some needing PD as if lacking #ecetechchat

19-Jan-12 02:14 | dubiouseducator

@giovanniarroyo Are some of those benefits universal? Do you have anything written/posted you could share about them? #ecetechchat

19-Jan-12 02:14 | mpowers3

We had similar to "centers" at the beg. of yr for the tchrs in district. I prsnted on blogging w/ k12 stdnts. #ecetechchat

19-Jan-12 02:14 | TeacherInMe

The problem is that the culture of the org must already be accepting of change to help people overcome the fear of failure #ECETechchat

19-Jan-12 02:14 | FSSimon

Lets let teachers take technology home to have time to play, to play with their own child(ren) and learn in low stakes setting #ECETechChat

19-Jan-12 02:13 | chipdono

RT @glovely: AND permission to fail (which = permission to take risks) is imperative #ECETechChat Hi Gail! Yes! Permission to fail.

19-Jan-12 02:13 | FSSimon

I think SHOWING whatever it is in action helps too! #ECETechChat

19-Jan-12 02:13 | glovely

Love this idea! RT @teacherinme: I think having a "center-based" PD/training on tech would have the most impact on learning. #ecetechchat

19-Jan-12 02:13 | mpowers3

And, you have to specifically show them how it solves THEIR problems. #ECETechchat

19-Jan-12 02:12 | FSSimon

@glovely glad to have you! thanks for joining us #ecetechchat

19-Jan-12 02:12 | mpowers3

I think having a "center-based" PD/training on tech would have the most impact on learning. #ecetechchat

19-Jan-12 02:12 | TeacherInMe

I know some tchrs will not pay attention unless you show them specifically how it can be used - not just generalizations #ECETechChat

19-Jan-12 02:12 | KarenNemethEdM

@teacherinme I would agree! Some PD is way better than no PD. Have you found PD helps w/ accepting/learning tech? #ecetechchat

19-Jan-12 02:11 | mpowers3

RT @KarenNemethEdM: Maybe overcoming resistance means differentiating - letting tchr choose their learning #ECETechchat Too much fear!

19-Jan-12 02:11 | FSSimon

Hi everyone in #ECETechChat... glad to be able to join in...

19-Jan-12 02:11 | glovely

@karennemethedm So why not make PD have play time built in? There's so much (tech) learning through play 4 adults too #ecetechchat

19-Jan-12 02:11 | mpowers3

@mpowers3 I wouldn't consider it resistance if PD is provided. Timing may be off, but it's better than no PD at all #ecetechchat

19-Jan-12 02:10 | TeacherInMe

Maybe overcoming resistance means differentiating - letting each tchr choose their own way to learn #ECETechchat

19-Jan-12 02:10 | KarenNemethEdM

Q1. So, I think people are saying professional development can help overcome resistance, but can it help avoid resistance?#ECETechChat

19-Jan-12 02:10 | FSSimon

#ecetechchat Teachers need opportunities to practice implementation of technology.

19-Jan-12 02:10 | aueagle1

RT @karennemethedm: I want to say: pro dev must be timed well - not too far BEFORE you get the tech, but not too long after! #ECETechChat

19-Jan-12 02:10 | mpowers3

@mpowers3 Some people feel resistant the minute you require them to attend pro dev and they'd rather just play first #ECETechChat

19-Jan-12 02:09 | KarenNemethEdM

@KarenNemethEdM Last week we discussed the concept that prof dev takes a variety of forms from experimentation to formal. #ECETechChat

19-Jan-12 02:09 | FSSimon

OK, so how about that first question on the list? Resistance? #ECEtechCHAT
